

# TWC CONSTRUCTION, INC.

## SUMMARY

TWC Construction, Inc. (TWC) provides general contracting and construction management services. The company is headquartered in Henderson, Nevada and holds licenses in Nevada, California, Utah and Arizona. It is known for providing unparalleled levels of professionalism, accountability, and commitment to delivering on time and on budget.

## HISTORY

Founded in 1997 by Andrew Lessman and Matthew Ryba, TWC believes in a commitment to building relationships with clients, not just building projects for them.

## MISSION

Deliver superior construction management services to each of our commercial and industrial clients by effectively applying our technical and management expertise to each project and the overall company operation.

## SERVICE OFFERINGS

Services range from design/build and new construction to tenant improvement, concrete tilt-ups, medical plazas, restaurants, commercial shopping centers, class A office buildings, as well as on and off-site improvements. TWC provides a full service experience that includes creative design assistance and value engineering consulting to ensure a high quality, cost effective project.
